Information Governance just another name for Records Management?

AIM Information Governance: can it be automated? TAKE OUR SURVEY

AIM Survey: is it really governance you're practicing?

Hi Claudio,

Our 2014 Information Governance survey indicated that 80% of organizations are moving to a more holistic governance view of content management rather than the traditional records management view. The growing volume of information necessitates the adoption of real-time compliance automation processes.

Please help us track the progress of these objectives. Tell us:

- How far are you along this journey?
- How are you coping with increasing content volumes?
- Are you using or experimenting with automated classification to improve searchability and reduce TFC (transfer, delete or trash content)?

História da Fotografia

- ▶ <https://www.youtube.com/watch?v=GyNa1OdJjcg>
- ▶ Depois do filme vamos fazer um debate sobre os aspectos históricos;
- ▶ Aproveitem o debate para estruturar a resenha individual. A resenha tem que conter uma linha do tempo com os principais marcos históricos e para cada marco um breve resumo sobre o marco;
- ▶ Complementar os marcos com pesquisas na internet sobre a entrada da fotografia digital;
- ▶ Entregue na próxima aula (01/9).
